

Mobility Hub

Looking for infrastructure to support micro-mobility vehicles and Bike/Scooter share programs?

The Mobility Hub is the most universal, visible and durable on-street infrastructure available for all micro-mobility vehicle types. The Mobility Hub provides optimal parking for scooters and bicycles, including bike share and scooter share programs.

- » **Keeps sidewalks clear for pedestrian travel**
- » Compatible with micro-mobility vehicles including bikes, scooters, and share programs
- » U-Lock compatible for both bikes and scooters
- » Rapidly deployable
- » Set up as temporary or permanent infrastructure
- » Available in multiple configurations
